

Workshop on Functional Electronics for Green and Circular Economy

Where do we stand now (after 2 years)?

Workshop with projects funded under EU Call HORIZON-CL4-2021-DIGITAL-EMERGING-01-31

Hosted by OE-A in cooperation with the EU Green Electronics Working Group

May 19, 2025, Frankfurt, Germany

Dear participants,

Please note that we need to process your personal data for the organization of our meetings/events. Your personal data is used for

- Event documents:
 - List of Attendees with limited personal information (Full name, Company, City, Country). This list will be available to participants of the meeting and OE-A members
 - Name badges
- We may use your contact details to send you event-related information and materials.
- We may pass on your data to cooperating institutions/companies if this is necessary for the provision of the service.

Please also note that **photographs** will be taken during the workshop. With your participation, OE-A / VDMA e.V. receives the right, without special remuneration, to create photographs in connection with this event and use or allow the use of these recordings in **audiovisual media (e.g. OE-A website, social media, Twitter, LinkedIn)** and in print media (e.g. OE-A News).

The photographs will be used on social media (OE-A pages on Twitter and LinkedIn) **during the event**, and exclusively for reporting purposes and documentation of the event afterwards; there will be no further processing of the images. We shall store the data for as long as it is needed for purposes related to our processing.

Further information on your individual rights and general information on our handling of your personal data is available at www.vdma.org/en/privacy

By registering for the event, you confirm that you have read and accepted this notification. You can object at any time should you not wish to have your personal data processed to obtain information on future events.
