

## Agenda

Date June 1, 2021  
Time 15:15 – 17:15 h (CEST)  
Format Web-Seminar

## OE-A Web-Seminar | Printed Electronics Insights Special Topic: Materials and Processes

As a part of **OE-A's web-seminar series 'Printed Electronics Insights'** this web-seminar covers the special topic of **Materials and Processes**. Renown industry experts will talk about materials and processes that drive forward the industry and enable new applications.

Directly after the web-seminar, we invite all interested attendees to an **Interactive Networking and 'Meet the Speaker' Session**. Besides offering the opportunity for networking among the attendees, all speakers of the web-seminar will be available for further questions and discussions.

### 15.15 Log-in Web-Seminar

### 15.30 Welcome and Introduction

Klaus Hecker, Managing Director, OE-A

### 15.35 Introduction OE-A Roadmap: Materials and Processes

Jan Krausmann, Project Manager, OE-A

### 15.45 From Inspiration to Realization: How CNT Hybrids Can Make the Best Printed Electronics You'll Never See

Kenneth Klapproth, Chief Marketing Officer, Chasm Advanced Materials

### 16.05 R2R processing for flexible printed electronics - upscaling processes between Fab and Lab

Andrea Glawe, Regional Sales Director, KROENERT

### 16.25 Q&A Session

Klaus Hecker, Managing Director, OE-A

### 16.40 Summary and Adjourn

Klaus Hecker, Managing Director, OE-A

### 16.45 End of Web-Seminar
