

**Titel**

**Linde – How a globally active company deals with geopolitical tensions**

**Tilman Weide**

Senior Vice President Global Execution  
Member of the Executive Leadership Team  
Linde GmbH, Linde Engineering  
Germany

**Biography**

Tilman Weide is Senior Vice President Global Execution and a Member of the Executive Leadership Team of Linde Engineering. He is responsible for Global Execution, comprising Engineering, Global Construction, Global Procurement, Project Execution, QHSE & CI, for Linde Engineering India, and the Sub-Saharan region in Africa.

Tilman began his career with Linde in 1989. He served in various roles as a Project Director for Petrochemical Plants. Previously, he was Head of the product line Hydrogen and Syngas Plants.

He was also a member of various Supervisory Boards of Linde subsidiaries.

He lived and worked abroad for about 10 years, namely in East Asia and the United States.

Since November 2020, Tilman has been a Member of the Board of VDMA Bavaria.

Tilman has a degree in Mechanical Engineering from the Technical University of Munich (TUM).

**Company Profile**

Linde is a leading global industrial gases and engineering company with 2023 sales of \$33 billion. We live our mission of making our world more productive every day by providing high-quality solutions, technologies and services which are making our customers more successful and helping to sustain, decarbonize and protect our planet.

The company serves a variety of end markets such as chemicals & energy, food & beverage, electronics, healthcare, manufacturing, metals and mining. Linde's industrial gases and technologies are used in countless applications including production of clean hydrogen and carbon capture systems critical to the energy transition, life-saving medical oxygen and high-purity & specialty gases for electronics. Linde also delivers state-of-the-art gas processing solutions to support customer expansion, efficiency improvements and emissions reductions.
