Brief Introduction

CIPPE is the most important and largest trade fair for petroleum and petrochemical technology in China. Moreover, CIPPE Beijing is nowadays the largest trade fair in Asia in its industry. In addition to the petroleum and petrochemical technology, exhibitors also include companies in other process engineering areas like waste material handling, marine equipment and offshore engineering.

Since 2013, VDMA is partnering with the fair organizer and successfully runs the VDMA German Pavilion. More than 30 German companies usually participate in CIPPE in Beijing, most of them under the umbrella of VDMA in the VDMA German Pavilion. The trade fair package we offer you is particularly attractive and assures an efficient trade fair participation for your company.

We look forward to your participation!
